DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

2. Claims 13-14 are rejected under 35 U.S.C. 102(e) as being anticipated by Higurashi (US 5,063,452).

Higurashi discloses the claimed subject matter in claims 13-14 including “modulating” the digital signal and sending the biased signal to the recording medium. The signal is reproduced according to the medium, which includes the biased signal (Abstract; col. 2, line 46 to col. 3, line 40).

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Suwa et al. (US 5,124,852) disclose Magnetic Tape Recording Apparatus.
